

5 Hazards

Practice questions

Page 1 of 2

Practice question	Marks	Where to look in Kerboodle...		
		Student Book	Assessment	
1 Outline contemporary theories that explain the movement of the Earth's plates.	4 marks	Page 278	5.3 Practice question mark scheme Q1	5.3 Practice question Q1
2 Study Figure 3, page 239, and Figure 7, page 241. Analyse the relationship between distance from the epicentre and death toll.	6 marks	Page 278	5.11 Practice question mark scheme Q2	5.11 Practice question Q2
3 Using Figure 1 (page 278) and your own knowledge, assess the influence of intra-plate vulcanicity at a global scale.	9 marks	Page 278	5.4 Practice question mark scheme Q3	5.4 Practice question Q3
4 Critically assess the relative impact of different types of seismic hazards on human life.	9 marks	Page 279	5.11 Practice question mark scheme Q4	5.11 Practice question Q4
5 'Economic and cultural geography determine the degree to which a potential natural event is perceived as a hazard worth planning for.' With reference to a local scale community you have studied, evaluate this statement.	20 marks	Page 279	5.1 Practice question mark scheme Q5	5.1 Practice question Q5
6 For a multi-hazardous environment you have studied beyond the UK, explain the nature of the hazards faced.	4 marks	Page 279	5.13 Practice question mark scheme Q6	5.13 Practice question Q6
7 Study Figures 2 and 3 (page 278). Analyse the data shown.	6 marks	Page 279	5.16 Practice question mark scheme Q7	5.16 Practice question Q7
