

Aspiring A-level Biologists

Summer Task & Transition packs

If you are planning to do A-level Biology in September then you will need to work through both packs in preparation for the TEST in Sep.

- GCSE to A-level Biology **Transition PACK** - students version ([Highly Recommended](#))
- Complete Biology **Summer Tasks** Document (**Compulsory**)

Towards the end of September, you will have a TEST on the **Summer Tasks** pack only (item 2 above) which is most of chapter 3 from the A-level textbook. We will **not** be teaching this content to you, so you must learn it ready for September!

Below is the link to these packs:

[Summer Tasks & Transition Packs](#)

The **Transition PACK** (item 1 above) will help you immensely with this test - it has a practice test and mark scheme so you can test yourself and mark it.

Best of luck

Mr F Ahmed

Head of Science, Biology & Enrichment
